Military Technical College

MINISTRY OF DEFENSE MILITARY TECHNICAL COLLEGE Kobry Elkobbah, Cairo, EGYPT

UMIS-TIC

The Military Technical College, Cairo, Egypt, has the pleasure to announce its organization of the 2nd Unmanned Systems Innovation Competition (UMSIC) in July 22-27, 2017, Cairo, Egypt.

Invitation

In order to motivate the spirit of innovation and scientific research among the engineering students, the Egyptian Ministry of Defense invites teams from engineering faculties all over the country to compete in design and manufacture of Unmanned Systems, autonomous or remotely operated, to accomplish different tasks in Field.

Competition Languages

English is the official competition language in application, technical reports and presentations.

Competition modules

Teams will compete in presenting an Unmanned Systems that is either autonomously or remotely operated.

Prospective teams will undergo review and down-selection processes in Critical Design Review (CDR) package milestone.

In each event, twenty teams only from all teams in the event will be selected and invited to present their vehicles in the competition event, which will include a field and presentation tasks.

Conference Correspondence

All correspondence should be addressed to:
